

沖縄県環境基本計画施策体系図

豊かな自然環境に恵まれたやすらぎと潤いのある沖縄県

環境への負荷の少ない循環型の社会づくり

- 1. 大気環境の保全
 - 二酸化窒素環境基準の達成
 - 光化学オキシダント環境基準の達成及び注意報発令日数ゼロの維持
 - 浮遊粒子状物質の環境基準の達成
 - 有害大気汚染物質の環境基準の達成
 - クリーンエネルギーの導入促進
- 2. 水環境の保全
 - 公共用水域（河川、海域）の環境基準の達成
 - 下水道等の污水处理施設整備の促進
 - 畜産環境汚染の防止
 - 健全な水循環系の構築
- 3. 化学物質対策の推進
 - ダイオキシン類の排出抑制の推進
 - 化学物質による環境汚染の未然防止
- 4. 騒音・振動・悪臭の防止
 - 道路交通騒音の環境基準達成
 - 航空機騒音の防止
 - 騒音・振動・悪臭の防止
- 5. 土壌・地下水環境の保全
 - 土壌の環境基準の遵守の徹底
 - 地下水質の環境基準の達成
 - 環境にやさしい農業の推進
- 6. 赤土等流出の防止
 - 赤土等流出の防止
- 7. 廃棄物・リサイクル対策の推進
 - 廃棄物の発生抑制、リサイクル及び適正処理の推進
 - 家畜ふん尿リサイクルシステムの推進
 - 廃プラスチック処理の推進

人と自然が共生する潤いのある地域づくり

- 1. 緑・水辺・景観の保全と創造
 - 公共施設等の緑化推進
 - 道路緑化の推進
 - 身近（学校、公共施設、住宅・民間施設）な緑化の推進
 - 水辺空間の保全と創造
 - 下水処理水再利用による親水空間の確保
 - 良好な都市景観の形成
 - 良好な自然・農村景観の保全と創造
- 2. 歴史・文化環境の保全と創造
 - 文化財の指定推進
 - 記念物の保存整備及び保護・活用
 - 良好な自然・農村文化の保全と創造
- 3. 海域生態系の保全
 - 海域生態系の適正な保全と創造
 - 自然環境に配慮した海辺づくりの推進
 - 海辺の自然との触れ合いの場の保全と創造
- 4. 陸域生態系の保全
 - 陸域生態系の適正な保全と創造
 - 多様な生物の生息・生育環境の保全
 - 森林・みどりの整備の推進
 - 豊かな自然（陸域生態系）と調和した社会づくり
 - 自然との触れ合いの場の保全と創造
- 5. 陸水域生態系の保全
 - 水辺の保全・復元・創造
 - 自然環境に配慮した憩い潤いのある水辺づくりの推進

環境保全活動への積極的な参加

- 1. 環境教育・環境学習の推進
 - 環境教育・環境学習の推進
- 2. 自主的な環境保全活動の促進
 - 自主的な環境保全活動の促進
- 3. 普及・啓発活動の推進
 - 普及・啓発活動の推進

地球環境の保全に貢献する社会づくり

- 1. 地球温暖化防止対策の推進
 - 温室効果ガス排出量の削減
- 2. オゾン層保護対策の推進
 - フロンを全量回収をめざした取組の推進
- 3. 酸性雨対策の推進
 - 酸性雨対策の推進
- 4. その他の地球環境問題への取組の推進
 - その他の地球環境問題への取組の推進
- 5. 国際環境協力の推進
 - 国際環境協力の推進

基地公害の防止のための施策

- 基地関連公害の防止
 - 基地関連公害の防止

環境保全のための共通的・基盤的施策

- 共通的・基盤的施策の総合的な実施による計画の推進
 - 環境政策の総合企画立案・調整
 - 環境保全に関する計画の策定・推進
 - 環境影響評価に係る審査指導
 - 戦略的環境影響評価（SEA）の推進

重点的に取り組む総合的施策

- 1. 環境教育等の推進
- 2. 河川・溪流環境の保全及び、生活排水対策の総合的推進
- 3. 廃棄物・リサイクル対策の推進
- 4. サンゴ礁・干潟・藻場の保全
- 5. 赤土等流出防止対策の推進
- 6. 化学物質環境保全対策の総合的推進
- 7. 亜熱帯の自然生態系の保全
- 8. 基地から派生する環境問題の解決促進

A Peaceful Okinawa Blessed with an Abundant Natural Environment

Creation of a recycling-type society that has less impact on the environment

1. Conservation of the atmospheric environment
 - Achieve environmental quality standards for NO₂
 - Achieve environmental quality standards for photochemical oxidants and maintain the record for non-issuance of photochemical oxidant warnings
 - Achieve environmental quality standards for suspended particulate matter (SPM)
 - Achieve environmental quality standards for harmful air pollutants
 - Promote clean energy
2. Conservation of the aquatic environment
 - Achieve environmental quality standards for public waters (rivers and ocean)
 - Develop sewer systems and other sewage treatment facilities
 - Prevent pollution from livestock farms
 - Establish sound water recycling systems
3. Promotion of measures against chemical substances
 - Control dioxin emissions
 - Prevent environmental pollution from chemical substances
4. Prevention of noise, vibrations, and offensive odor
 - Achieve environmental quality standards for road traffic noise
 - Stop aircraft noise
 - Prevent noise, vibrations, and offensive odor
5. Soil and groundwater conservation
 - Enforce environmental quality standards for the soil
 - Achieve environmental quality standards for groundwater quality
 - Promote environmentally friendly agricultural practices
6. Prevention of red soil runoff
 - Prevent red soil runoff
7. Promotion of waste and recycling measures
 - Promote waste reduction, recycling, and appropriate treatment
 - Promote recycling systems for livestock excreta
 - Promote treatment of plastic wastes

Developing a rich community where people and nature coexist together

1. Preservation and creation of greenery, waterside areas, and scenic sites
 - Promote tree planting in public facilities
 - Promote tree planting along roadsides
 - Promote neighborhood tree planting (schools, public facilities, residences, and private facilities)
 - Conserve and create waterside environments
 - Create sites where people can enjoy water areas by reusing treated sewage
 - Improve the urban landscape
 - Conserve and improve the natural and rural landscape
2. Preservation and creation of historic and cultural sites
 - Promote designation of cultural assets
 - Preserve, protect, and utilize historic and cultural monuments
 - Conserve and create pleasing natural and rural landscapes
3. Conservation of marine ecosystems
 - Appropriate conservation and creation of marine ecosystems
 - Waterfront development in harmony with nature
 - Conservation and creation of recreational seaside areas where people can enjoy nature
4. Conservation of terrestrial ecosystems
 - Appropriate conservation and creation of terrestrial ecosystems
 - Conserve habitats and breeding grounds for various wildlife
 - Promote forest and greenery enhancements
 - Create a society in harmony with nature (terrestrial ecosystems)
 - Conserve and create recreational area where people can enjoy nature
5. Conservation of freshwater ecosystems
 - Conserve, restore, and create waterside environments
 - Promote waterside development in harmony with nature to offer relaxation and comfort

Active participation in environmental preservation activities

1. Enhancing environment education and learning
 - Promote environmental education and learning
2. Promoting voluntary environmental conservation activities
 - Promote voluntary activities for environmental conservation
3. Promoting publicity efforts and raising public awareness
 - Promote publicity efforts and activities to raise public awareness

Fostering a society that contributes to global environmental conservation

1. Promotion of measures against global warming
 - Reduce emissions of greenhouse gases
2. Promotion of measures to preserve the ozone layer
 - Promote efforts to withdraw all fluorocarbons from use
3. Promotion of measures against acid rain
 - Promote measures against acid rain
4. Efforts to resolve global environmental problems
 - Promote efforts to resolve global environmental problems
5. International cooperation for the environment
 - Promote international cooperation for the environment

Measures against pollution from military bases

- Prevention of pollution associated with military bases
- Prevent pollution associated with military bases

Common fundamental measures for environmental conservation

- Implementation of common fundamental measures for promotion of the plan
- Plan and coordinate comprehensive environmental policies
 - Establish and promote plans for environmental conservation
 - Provide guidance on environmental impact assessments
 - Promote strategic environmental assessments (SEA)

Focal comprehensive measures

1. Promote environmental education
2. Conserve rivers and streams; promote measures to control household effluents
3. Promote measures on waste control and recycling
4. Preserve coral reefs, tidelands, and seagrass beds
5. Promote measures to control red soil runoff
6. Promote comprehensive measures to protect the environment from chemical substances
7. Conserve the subtropical ecosystem
8. Resolve environmental problems arising from military bases
