

「環境保全活動への積極的な参加」

項目	目標設定内容	達成シナリオ(主要な対策・スケジュールなど)
目標設定項目		
環境教育・環境学習の推進	○学校、家庭、地域、職場等において環境教育・環境学習を推進します。	○環境学習の推進(環境教育モデル校の指定等) ○参加型環境モニタリングの推進(水生生物による水質調査等) ○体験学習の推進(体験学習会の開催等) ○エコツアーの推進等
○環境教育・環境学習の推進		
自主的な環境保全活動の促進	○各主体の自主的、積極的な環境保全活動への取り組みを推進します。	○県内中小企業ISO14001認証取得支援 ○環境保全に関する計画の策定・推進 ○ローカルアジェンダ等行動計画の策定・推進 ○環境保全のための情報の提供と支援(地域環境センターの運営、環境情報システムの構築等)
○自主的な環境保全活動の促進	○県はISO14001の認証取得を率先して目指します。	
普及・啓発活動の推進	○環境情報の適切な提供に努めます。	○環境保全思想の普及啓発 ◇沖縄環境交流集会の開催等
○普及・啓発活動の推進	○環境保全に関する普及・啓発活動を推進します。	○野生生物保護の普及啓発 ◇やんばる野生生物保護センター展示室運営等 ○ちゅらしま環境美化促進事業 ○ごみ減量・リサイクルの普及啓発 ◇マイ・バック・キャンペーン等

「地球環境の保全に貢献する社会づくり」

項目	目標設定内容	達成シナリオ(主要な対策・スケジュールなど)
目標設定項目		
地球温暖化防止対策の推進	○温室効果ガス総排出量を2010年度までに2000年度レベルから8%削減することを目指します。	○地球環境保全の推進 ◇地球温暖化防止対策(地球温暖化対策地域推進計画の推進)等 ○新エネルギーの導入 ○CO ₂ 吸収源対策の推進等
○温室効果ガス排出量の削減		
オゾン層保護対策の推進	○廃家電品、カーエアコン等からのフロン回収を促進し、2012年度までに全量回収を目指します。	○フロン回収・破壊の推進(オゾン層保護対策) ○フロンの回収・処理の実態調査等
○フロンの全量回収をめざした取組の推進		
酸性雨対策の推進	○酸性雨の監視や調査研究を進め、発生の防止に努めます。	○酸性雨防止対策を行うための実態把握(酸性雨観測(降水のpH測定、イオン分析)等)
その他の地球環境問題への取組の推進	○熱帯林の減少等その他の地球環境問題にも適切な対応に努めます。	○その他の地球環境問題への取組(ローカルアジェンダ等行動計画の策定・推進により、地球環境問題に対して、適切な対応を進めます。)
国際環境協力の推進	○国際環境協力のための交流事業を推進します。	○国際環境協力の推進 ◇環境保全研修生受入等

Active participation in environmental preservation activities

Category	Goals	Schemes for Achievement (Measures, schedules, etc.)
Objective		
Enhancing environmental education and learning	Promote environmental education and learning at schools, homes, communities, and the workplace.	<ul style="list-style-type: none"> Promote environmental education (designate model schools for environmental education, etc.) Encourage public participation in environmental monitoring (water quality survey using aquatic life) Provide hands-on learning opportunities (hold workshops, etc.) Promote ecotourism, etc.
Promote environmental education and learning		
Promoting voluntary environmental conservation activities	<ul style="list-style-type: none"> Encourage voluntary activities for environmental conservation by various entities Okinawa Prefectural Government will take the initiative to receive ISO 14001 certification 	<ul style="list-style-type: none"> Support small and medium-sized enterprises to receive ISO 14001 certification Establish and promote plans for environmental conservation Establish and promote the local agenda and other action plans Provide information on environmental conservation (operation of the regional environmental center, and development of the environmental information systems)
Promote voluntary activities for environmental conservation		
Promote publicity efforts and activities to raise public awareness	<ul style="list-style-type: none"> Provide adequate information on the environment Promote publicity efforts and activities to raise public awareness on environmental conservation 	<ul style="list-style-type: none"> Publicize and raise public awareness on the principles of environmental conservation Hold exchange sessions for Okinawa's environment Publicize and raise public awareness on wildlife protection Operation of Yanbaru Wildlife Center exhibit hall The Chura-shima Environmental Beautification Promotion Project Publicizing and raising public awareness on waste reduction and recycling Campaign for reusable shopping bags
Promote publicity efforts and activities to raise public awareness		

Fostering a society that contributes to global environmental conservation

Category	Goals	Schemes for Achievement (Measures, schedules, etc.)
Objective		
Promotion of measures against global warming	Reduce the total emission of greenhouse gases by 8% from FY 2000 levels by FY 2010.	<ul style="list-style-type: none"> Promote conservation of the global environment Measures to prevent global warming (promote the regional plan on global warming countermeasures) Introduce new energy Promote measures for CO₂ absorption sources
Reduce emission of greenhouse gases		
Promotion of measures to preserve the ozone layer	Withdraw fluorocarbons from use in household appliances and automobile air conditioners, for complete withdrawal of all fluorocarbons by FY 2012.	<ul style="list-style-type: none"> Promote withdrawal and destruction of all fluorocarbons (ozone layer protection measures) Survey current status of fluorocarbon withdrawal and disposal
Promote efforts to withdraw all fluorocarbons from use		
Promotion of measures against acid rain	Promote acid rain prevention through advanced monitoring, surveys, and research.	<ul style="list-style-type: none"> Study the current status of acid rain to develop effective prevention measures (acid rain monitoring: pH measurement of precipitation; ionic analysis)
Efforts to resolve global environmental problems	Promote efforts to resolve global environmental problems, such as diminishing rain forests.	<ul style="list-style-type: none"> Efforts to resolve global environmental problems (establish and promote the local agenda and other action plans for advancement of appropriate measures against global environmental problems)
International cooperation for the	Promote exchange programs for international cooperation for the environment.	<ul style="list-style-type: none"> Promote international cooperation for the environment Accepting trainees for environmental conservation

基地公害防止のための施策

項目 (目標設定項目)	目標設定内容	達成シナリオ(主要な対策・スケジュールなど)
基地関連公害の防止	○米軍基地の存在に起因する基地公害の防止に努めます。	○ 基地公害対策 ◇ 基地公害の監視調査等 (基地排水監視調査及び基地周辺公共用水域の水質等監視調査 等) ◇ 基地公害防止の要請 (基地公害監視測定結果に基づき、関係機関へ直接要請及び「三者連絡協議会」等の場をとおして米軍及び国に対し、騒音低減化などの改善を要請するなど基地公害の防止に努めます。) ◇ 騒音防止対策 (嘉手納及び普天間の米軍使用の飛行場について、「防衛施設周辺の生活環境の整備等に関する法律」に基づき、飛行場周辺の教育施設や民間住宅の防音工事への助成、移転の補償等への助成を実施するよう国に働きかけます。) ◇ 在沖米軍基地周辺環境マップ作成事業の推進 (基地周辺の環境調査 等) ◇ 米軍基地からの赤土等流出防止 (流出状況調査、普及啓発要請) ◇ 原子力軍艦の寄港に係る放射能対策 ◇ 返還跡地の環境浄化対策の確立 ◇ 米軍に対する環境保全に関する要請 (日米地位協定の見直しに関する要請)(米軍への環境保全に関する日本国内法の適用及び、適用に向けた国内法の整備 等) ◇ 基地から派生する廃棄物の適正処理

Measures against pollution from military bases

Category Objective	Goals	Schemes for Achievement (Measures, schedules, etc.)
Prevention of pollution associated with military bases	Prevent pollution arising from the presence of U.S. military bases.	<ul style="list-style-type: none"> Measures against pollution from military bases Conduct surveys on pollution from military bases (monitoring of effluents from bases and water quality surveys in public waters surrounding the bases) Request prevention of pollution (Send direct requests to relevant agencies concerning noise reduction and other improvements based on survey results. Make the same requests to the U.S. military and the Government of Japan through the Tripartite Liaison Committee) Promote noise prevention measures (As for the Kadena and Futenma U.S. military airfields, request Government of Japan provide subsidies to sound-proof schools and homes and as compensation for relocation, in accordance with the Law on Improving the Living Conditions Around Defense Facilities) Provide environmental mapping of areas around U.S. military bases in Okinawa (environmental surveys around the bases) Prevent red soil runoff from U.S. military bases (surveys of current conditions; request publicity campaigns and activities to raise awareness) Promote radiation countermeasures against nuclear vessels making port calls in Okinawa Establish environmental cleanup measures for returned military base land Request the U.S. Forces to promote environmental conservation (request review of the U.S.-Japan Status of the Forces Agreement) (improve and apply Japanese law on environmental conservation to the U.S. military) Ensure appropriate treatment of waste generated from military bases.

環境保全のための共通の・基盤的施策

項目 (目標設定項目)	目標設定内容	達成シナリオ(主要な対策・スケジュールなど)
共通の・基盤的施策の総合的な実施による計画の推進	○環境保全のための共通の・基盤的施策の総合的な実施による計画の推進を図ります。	○ 環境政策の総合企画立案・調整 (環境分野ゼロエミッション総合調整 等) ○ 環境保全に関する計画の策定・推進 ◇ 率先実行計画等の策定・推進 等 ◇ 環境保全に関する広報啓発活動 (地域環境センターの運営 等) ◇ 環境情報システムの構築 (環境マップの作成) ○ 環境影響評価に係る審査指導 (技術指針の見直しに向けた調査・研究) ○ 戦略的環境影響評価 (SEA) の推進

Common fundamental measures for environmental conservation

Category Objective	Goals	Schemes for Achievement (Measures, schedules, etc.)
Implementation of common fundamental measures for promotion of the plan	Promote the plan through wide-ranging implementation of common fundamental measures for environmental conservation	<ul style="list-style-type: none"> Plan and coordinate comprehensive environmental policies (comprehensive coordination for zero emissions in environmental fields) Establish and promote plans for environmental conservation <ul style="list-style-type: none"> Establish and promote leading execution plans Promote activities to publicize and raise public awareness of environmental conservation (operation of the regional environmental center, etc.) Develop environmental information systems (creating environmental maps, etc.) Provide guidance on environmental impact assessments (conduct surveys and studies towards revisions of technical guidelines) Promote strategic environmental assessments (SEA)
