

重点的に取り組む総合的施策

1. 環境教育等の推進

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○環境教育・環境学習が環境政策に不可欠な政策手段であるとの認識の下に、これを環境政策全体の中で適切に位置付け、推進するとともに、地球温暖化対策、廃棄物・リサイクル対策をはじめとするすべての個別政策分野において、環境教育・環境学習を政策立案段階から有効な政策手段として位置付け、推進します。	○環境教育・環境学習の推進 ○自主的な環境保全活動の促進 ○普及・啓発活動の推進

自然体験学習

Focal comprehensive measures

Promotion of environmental education

Objectives	Focal Comprehensive Measures (Goals for individual measures)
Promote environmental education and learning as policy tools vital to the advancement of environmental policy; incorporate environmental education and learning in policy planning stages as effective tools in various arenas including measures against global warming, as well as measures on waste and recycling.	<ul style="list-style-type: none"> Promote environmental education and learning Advance voluntary activities for environmental conservation Promote publicity and activities to raise public awareness

Nature learning experience

2. 河川・溪流環境の保全及び、生活排水対策の総合的推進

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○亜熱帯の多様な生物の生息・生育場を保全するとともに、県民の憩いの場や水資源等として、それぞれの利用目的に応じた機能が維持されるよう、河川・溪流環境の保全対策を推進します。 ○公共用水域の汚濁負荷の大部分を占める生活排水の対策として、市町村との連携のもとに「沖縄県下水道等整備構想」を推進します。下水道等の生活排水処理施設の整備を効果的かつ効率的に進めるとともに、市町村事業の支援等総合的な生活排水対策を推進することにより、公共用水域の水質保全を図ります。	○公共用水域（河川、海域）の環境基準の達成 ○赤土等流出の防止 ○水辺空間の保全と創造 ○豊かな自然（陸域生態系）と調和した社会づくり ○水辺の保全・復元・創造 ○自然環境に配慮した憩い潤いのある水辺づくりの推進

水質測定(源河川)

水生生物調査(汀間川)

Conservation of rivers and streams; comprehensive promotion of household effluent control measures

Objectives	Focal Comprehensive Measures (Goals for individual measures)
<ul style="list-style-type: none"> Conserve rivers and streams to preserve the habitats and breeding grounds for the diverse subtropical wildlife, and to maintain their functions as place of relaxation and water resources. Promote the “Okinawa Prefecture Sewer System Development Concept” in cooperation with municipalities to control household effluent which account for a major portion of contamination in public waters. Conserve water quality in public waters through comprehensive household effluent treatment measure, including effective and efficient development of sewer systems and other facilities for treatment of household effluent, and supporting municipal projects. 	<ul style="list-style-type: none"> Achieve environmental quality standards in public waters (rivers, ocean) Prevent red soil runoff Conserve and create waterside environments Create society in harmony with the bounty of nature (terrestrial ecosystems) Conserve, restore, and create waterside environments Promote development of nature-friendly waterside environments that offer relaxation and comfort

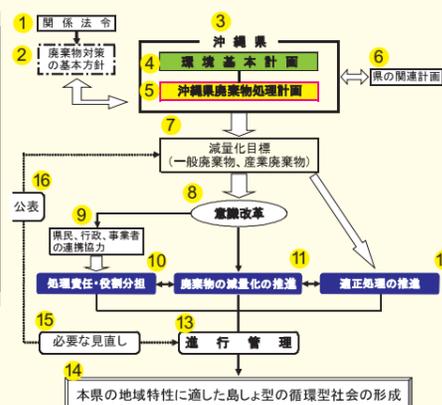

Measurement of water quality (Genka River)

Survey of aquatic life (Tema River)

3. 廃棄物・リサイクル対策の推進

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○廃棄物の排出を抑制し、循環的な利用による減量化とともに、最終処分をできるだけ低減することにより、持続可能な循環型社会の形成を図ります。	○廃棄物の発生抑制、リサイクル及び適正処理の推進 ○家畜ふん尿リサイクルシステムの推進 ○廃プラスチック処理の推進

Promotion of measures on waste control and recycling

Objectives	Focal Comprehensive Measures (Goals for individual measures)
Minimize waste sent to final disposal sites by reducing waste generation and improving recycling and reuse, to create a sustainable recycling-based society.	<ul style="list-style-type: none"> Promote waste reduction, recycling, and proper treatment Promote recycling systems for livestock excreta Promote treatment of plastic waste

- 1 Related laws and ordinances
- 2 Basic policy on waste
- 3 Okinawa Prefecture
- 4 Basic Environmental Plan
- 5 Okinawa Prefecture Waste Treatment Plan
- 6 Related Plans of Okinawa Prefecture
- 7 Reduction targets (general and industrial waste)
- 8 Changing awareness
- 9 Cooperation between residents, government, and businesses
- 10 Sharing roles
- 11 Promote waste reduction
- 12 Promote proper treatment
- 13 Ongoing management
- 14 Establishment of a recycling-based society appropriate for the insular character of Okinawa Prefecture
- 15 Necessary reviews
- 16 Publicize

4. サンゴ礁・干潟・藻場の保全

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○サンゴ礁、干潟、藻場等の機能が維持され、そこにおける健全な生態系が維持されることを目的とし、総合的な保全対策を推進します。 ○海と陸の連続性が保たれた健全な生態系の維持を目的とし、総合的な保全対策を推進します。	○海域生態系の適正な保全と創造 ○自然環境に配慮した海辺づくりの推進 ○海辺の自然との触れ合いの場の保全と創造

石西礁湖(背後は石垣島)

5. 赤土等流出防止対策の推進

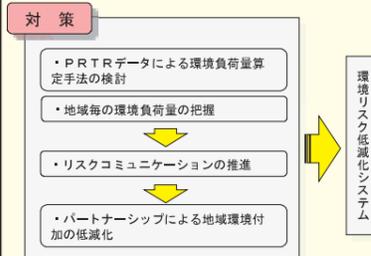

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○既存赤土等流出源からの流出を防止し、河川や海域の生態系を再生・維持していきます。	○赤土等流出の防止

赤土等流出防止対策協議会の開催

6. 化学物質環境保全対策の総合的推進

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○「内分泌かく乱化学物質」(環境ホルモン)を含む有害な化学物質に関し、人体への摂取量の削減をめざし、実態把握、県民への適切な情報提供とコミュニケーション、排出量の削減などにより、化学物質の環境リスクの低減化を推進します。	○ダイオキシン類の排出抑制の推進 ○化学物質による環境汚染の未然防止 ○環境にやさしい農業の推進

4. Preservation of coral reefs, tidelands, and seagrass beds

Objectives	Focal Comprehensive Measures (Goals for individual measures)
<ul style="list-style-type: none"> Promote comprehensive conservation measures to maintain the functions of, and healthy ecosystems in, coral reefs, tidelands, and seagrass beds. Promote comprehensive conservation measures to maintain healthy ecosystems with continuity between land and ocean. 	<ul style="list-style-type: none"> Provide for appropriate conservation and creation of marine ecosystems Promote nature-friendly seaside developments Conserve and create seaside recreational areas where people can enjoy nature

Sekisei Lagoon
(with Ishigaki Island in the background)

5. Promotion of red soil runoff prevention measures

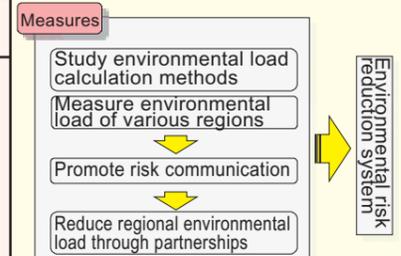

Objectives	Focal Comprehensive Measures (Goals for individual measures)
Prevent runoff from existing sources of red soil erosion. Regenerate and maintain river and marine ecosystems.	<ul style="list-style-type: none"> Prevent red soil runoff

Conference on Red Soil Erosion Prevention Measures

6. Promotion of comprehensive measures to protect the environment from chemical substances

Objectives	Focal Comprehensive Measures (Goals for individual measures)
Reduce human consumption of hazardous chemicals such as endocrine disruptors (environmental hormones). Minimize environmental risks of chemical substances through study of current conditions, informing and communicating with the general public, and reducing emissions.	<ul style="list-style-type: none"> Reduce dioxin emissions Prevent environmental pollution by chemical substances Promote environmentally-friendly agriculture

7. 亜熱帯の自然生態系の保全

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○亜熱帯の多様性に富んだ豊かな自然生態系の保全を推進します。	○海域生態系の適正な保全と創造 ○陸域生態系の適正な保全と創造 ○自然環境に配慮した憩い潤いのある水辺づくりの推進 等

西表島の密林と河川下流域に広がるマングローブ

8. 基地から派生する環境問題の解決促進

目的	重点的に取り組む総合的施策 (各個別施策の目標設定項目)
○米軍基地の存在に起因する基地公害の防止に努めます。	○基地関連公害の防止

航空機騒音発生状況・飛行状況調査(嘉手納飛行場周辺での調査)

7. Conservation of the subtropical ecosystem

Objectives	Focal Comprehensive Measures (Goals for individual measures)
Conserve the rich and diverse natural ecosystems of the subtropics	<ul style="list-style-type: none"> Provide for appropriate conservation and creation of marine ecosystems Provide for appropriate conservation and creation of terrestrial ecosystems Promote development of nature-friendly waterside environments that offer relaxation and comfort

The jungles of Iriomote Island and the mangroves in the lower reaches of the river

8. Resolution of environmental problems arising from military bases

Objectives	Focal Comprehensive Measures (Goals for individual measures)
Prevent pollution caused by the presence of U.S. military bases	<ul style="list-style-type: none"> Prevent pollution related to military bases

Survey of aircraft noise and flight conditions (in the vicinity of Kadena Air Base)
